SKILLS

Technical

HTML
CSS
JavaScript
TypeScript
React
Next.js
Node.js
Fastify
REST

Languages

English: B2
Polish: Native

Tools

Visual Studio Code
GIT
Linux
Windows

EXPEIRENCE

Fullstack developer (part time) at KoksCraft

november 2023 - december 2024

Creating an admin panel for the largest Minecraft server in Poland. I worked with the following technologies: React, TypeScript, Node.js, Fastify, Prisma, MySQL, WebSocket. The panel supports roles and permissions for authentication and authorization, as well as user statuses (online/offline) based on WebSocket.

PROJECTS

Photo App

Next.js (React)

TypeScript

TanStack Query

Sass

Live: <https://photoapp.maciej-garncarski.pl>

Repo: <https://github.com/MaciejGarncarski/photo-app>

PhotoApp is social media application created in the modern tech stack. In this app, you can create posts, comment them and chat with other users. It was my first attempt to create such a complicated app. It was tough experience, but in the end I learned a lot of things.

GitHub Searcher

Next.js (React)

TypeScript

TanStack Query

Tailwind CSS

Live: <https://github-searcher-maciek.vercel.app>

Repo: <https://github.com/MaciejGarncarski/github-searcher>

GitHub Searcher is a Next.js app with SSR, which uses REST API from GitHub to show users and repositories. This app has an accent color feature so you can pick your preferred color from the list.

OPEN SOURCE

Tanstack Router

PR: <https://github.com/TanStack/router/pull/2247>

Repo: <https://github.com/TanStack/router>

Fixed bug, where pendingComponent was not rendering if preload="intent" was set.
